

## Workshop

*Fascinating parts of the equids  
sector: critical characteristics,  
points and potentialities*

*5<sup>th</sup> International Workshop*

*MQIBR*

*April 2-3-4, 2019, Principal Auditorium,  
Faculty of Medicine, University of Tlemcen.*

## **GENERAL CONTEXT**

Biodiversity in agriculture is the product of thousands of activities in which humans have sought to meet their needs under very different climatic and ecological conditions. Indeed, the genetic variability of a species represents its evolutionary potential, which allows in particular the adaptation of species to environmental variations or resistance to new diseases.

In Algeria, animal genetic resources offer a great diversity of breeds in terms of their adaptation and production ability in their natural environment. Equines and donkeys are no exception to this finding. As such, they constitute a varied wealth, with great economic and socio-cultural importance. The horse industry occupies a prominent place in the history and economy of North Africa. In Algeria, equids are a real actor of sustainable development, particularly in the environmental field, playing a special role in the management of spaces and landscapes beneficial to the maintenance and development of biodiversity, but also in its relationship with humans. also contributing to sports and social activities.

### **Goal:**

Despite its great socio-cultural and economic importance, the equine industry does not benefit from any characterization and conservation program. In this context, this workshop aims to develop research programs for the valorization, characterization and control of pedigree of the Algerian equine breeds.

## **PRINCIPAL TOPICS**

**Session 1:** Genetics and reproduction

**Session 2:** Food and system of breeding

**Session 3:** Sport and culture

## **PLAN OF The WORKSHOP**

08.00-09.00	Reception of the participants
09.00-09.20	Words of welcome
09.20 – 09.40	Dr Mohammed Piro
09.40 – 10.00	Prof. Albano Beja-Pereira
10.00 -10.20	African union
10.20 – 10.40	Mr Rayane Ahmed
10.40 – 11.00	Prof Bouakaz Ahmed
11.00 – 11.20	Prof Gaouar SBS
11.20 -11.40	Prof Aumassip ginette
11.40 – 12.00	Prof Félix Meutchieye
12.00-12.30	DEBATES and conclusions
12.30-13.00	Photo exposure posters and contest
13.00-14.00	To lunch
14.00-18.00	Discussion (in parallel: session multi-field posters)
18.00-18.30	Conclusions

**PRESIDENT OF HONOR:**

Prof. Bouchrit Mostapha

**Vice PRESIDENT OF HONOR:**

Prof. Lahfa Farid

**PRESIDENT OF THE WORKSHOP:**

Prof. Gaouar S.B.Suheil Université de Tlemcen

**Vice-President OF The WORKSHOP:**

Dr. Ameer Ameer AbdelKader Université de Tlemcen

**SCIENTIFIC COMMITTEE****President**

Prof. Albano Beja-Pereira Center in Biodiversity and Genetic Resources, ICETA-CIBIO, Portugal

**Vice-president**

Dr Mohammed Piro Hassan II Institute, Morocco

**Members**Prof. Aumassip Djinette ADJR Association  
Prof Félix Meutchieye University of Dschang, Cameroun
