

SUSTAINABLE DEVELOPMENT POLICY

The University of Tlemcen, steadfast to its mission of public service and academic excellence, fully acknowledges its leading role in shaping a sustainable, inclusive, and responsible future.

Mindful of contemporary environmental, social, and economic challenges, the University has placed Sustainable Development at the core of its institutional strategy, in alignment with the National Vision for Higher Education, Algeria's National Strategy for Sustainable Development (SNDD 2035), and the United Nations' Sustainable Development Goals (SDGs).

Through its fundamental missions of Teaching, Research, Innovation, and Governance, the University of Tlemcen seeks to cultivate a culture of sustainability and social responsibility within the University community and its engagement with society at large.

Accordingly, the University of Tlemcen is committed to:

1. Aligning its strategic orientation and internal policies with the United Nations Sustainable Development Goals (SDGs) by incorporating measurable objectives, adapted to available resources, into its action plans and institutional reports;
2. Fostering the Integration of SDG framework into Teaching, Research, Innovation and Collaborative activities, in order to strengthen the competencies, values and sustainable practices of the University community;
3. Encouraging applied and interdisciplinary research that responds to regional and national social and environmental challenges;
4. Supporting collective and solidarity-based initiatives (clubs, associations, educational projects, partnerships) that contribute to social, cultural, and environmental sustainability, guided by logic feasibility and local impact;
5. Promoting equal opportunities, diversity, and inclusion as essential levers for cohesion and fairness within the university;
6. Developing local, national, and international partnerships aimed at pooling efforts and resources to advance sustainable development and enhance quality life within the university;
7. Ensuring transparency and the dissemination of results through the production and regular publication of performance indicators and institutional sustainability reports.

This policy serves as the reference framework for the planning, implementation, and monitoring of all institutional actions related to sustainable development.

Actions shall be prioritised according to available resources, established partnerships, and the University's strategic timelines.

Its implementation and monitoring shall be ensured by the Rector in coordination with the administrative and scientific authorities of the university.
